

7th MindBrainBody Symposium

March 18-19, 2019 Berlin

Program

Monday, March 18, 2019	
17:00 - 18:00	Registration
18:00 - 19:30	Keynote Public Lecture & Discussion Noam Sobel (Revohot) <i>Blood Sweat and Tears: Human Social Chemosignals in Health and Disease</i> Moderator: Arno Villringer (Berlin/Leipzig)
19:30 - 21:00	Reception & Poster Sessions
19:30 - 20:15	Poster Session A Posters Nr. A1-A13 (Veue: Foyer)
20:15 - 21:00	Poster Session B Posters Nr. B1-B13 (Veue: Foyer)

Tuesday, March 19, 2019			
09:00 - 09:05	Opening Remarks Arno Villringer (Berlin/Leipzig)	13:00 - 13:45	Poster Session C Posters Nr. C1-C14 (Veue: Foyer)
09:05 - 09:50	Keynote Lecture 1 Bigna Lenggenhager (Zurich) <i>Losing touch with your body: the plasticity of the bodily self and the feeling of disownership</i>	13:45 - 14:30	Poster Session D Posters Nr. D1-D14 (Veue: Foyer)
09:50-10:10	Coffee Break	14:30 - 15:10	Sponsor Parallel Workshops Brain Products & Biopac (Veue: Foyer)
10:10 - 11:25	Panel 1: Presentations by 5 Participants	15:15- 16:00	Keynote Lecture 2 Gianna Cocchini (London) <i>Anosognosia for motor and cognitive deficits: A multifactorial syndrome underlying different mechanisms</i>
1	Johannes Julius Mohn <i>Testing the longitudinal links between brain morphology and executive functions in middle childhood with poverty as a moderator</i>	16:00 - 16:20	Coffee Break
2	Anna Ciaunica <i>Integration of body and self in depersonalisation</i>	16:20 - 17:35	Panel 2: Presentations by 5 Participants
3	Alejandro Galvez-Pol <i>Active sampling during visual search is modulated by the cardiac cycle</i>	1	Lau Andersen <i>Somatosensory responses to nothing: An MEG study of expectations during omission of tactile stimulations</i>
4	Giulia Barsuola <i>Intrusions of negative autobiographical memories and mechanisms of cognitive control: a novel Autobiographical Think/No-Think paradigm</i>	2	Timo Torsten Schmidt <i>Attentional refreshment of tactile working memory</i>
5	James Livermore <i>Acute citalopram administration results in impaired information sampling decisions independent from risk or loss aversion</i>	3	Martin Grund <i>Intracranial recordings of unconscious somatosensory processing</i>
11:25 - 12:15	Workshops Mike Cohen (Nijmegen) <i>Science on a budget in the era of big data</i>	4	Christopher Gundlach <i>Attention modulates early visual stimulus processing independently of visual alpha oscillations</i>
12:15 - 13:00	Lunch	5	Josephine Heine <i>Transdiagnostic hippocampal shape analysis reveals shared hippocampal damage pattern in neuroimmunological disorders</i>
		17:35 - 18:20	Keynote Lecture 3 Megan Peters (Riverside/CA) <i>The computations and neural correlates of subjective perceptual experiences</i>
		18:20 - 18:30	Closing Remarks & Award/Certificate Distribution

Venue:
 Kaiserin Friedrich-Haus
 Robert-Koch-Platz 7, 10115 Berlin (NEW VENUE)
